

8/25/2015

Dear Customers,

[Our Recreational / Lap Swim, Fitness Room, Whirlpool and Sauna Operating Hours for 9/8/15-10/11/15](#) have been posted online at www.rockvillemd.gov/swimcenter.

The North Pool has retained its core hours which customers are used to from prior seasons, with some minor modifications. The Fitness Pool's schedule has extended hours in the Fall season to accommodate for space which was previously available in the South Pool. This year, as a temporary measure to allow for the Fitness Pool to serve a variety of uses concurrently, the pool will be set up for "short course" on weekdays and "long course" on weekends. While this temporary change limits the availability for long course swimming outdoors, it greatly increases the amount of space and time available overall to all user groups. Customers will note that the Fall I schedule runs until 10/11/15. As this date comes closer, we will be better able to evaluate the current weather conditions to see if the outdoor pool can continue to operate to a later date.

Continue to stay tuned to our "Notify Me" Email Newsletter for developments. If you are not already subscribed, please visit www.rockvillemd.gov/swimcenter and click the "Alerts / Notify Me" button on the left side of the screen. A website dedicated to our renovation project is available at www.rockvillemd.gov/rsfcrenovations where you can view updates as work progresses. A number of photo updates of the project are available for viewing.

We hope that you find these alternative arrangements to be satisfactory for the temporary construction period. This project is important for the long-term sustainability of the Rockville Swim and Fitness Center, and will result in a more positive user experience for the long term. If the alternatives available do not suit your needs or preferences, please email swimcenter@rockvillemd.gov so we may discuss other options.

Thank you again for your patience, loyalty and support as this project moves forward.

Sincerely,

Rockville Swim and Fitness Center Management
